## District Court Sitting in Blairmore

A sitting of the District Court was held in Blairmore on Wednesday, presided over by Judge Green, of Medicine Hat. Most of the day was occupied in hearing the case of the West Canadian Collieries vs. Lank Bros. This was a claim by the W.C.C. Co. against Lank Bros. for \$200, being balance claimed to be due on account of light and heat in connection with the Crystal Dairy property prior to November the 1st last. Lank Bros. admitted the amount, but submitted a counter claim for \$200 on account of a bull lost in a cave on the above company's property near Bellevue in October, 1917. This bull was a pure-bred short-horn, six-year-old, and valued at over \$200 and in some unaccountable manner strayed from the herd near Bellevue and tumbled into a cave, where it died of suffocation. J. E. Gillis appeared for the company, while G. M. Thompson, of Pincher Creek, represented Lank Bros. Evidence for complaint was taken from Eugene Large, master mechanic; Eugene Excoffin, outside boss; Louis P. Robert, mining engineer, and John R. Smith, sales agent; all of the West Canadian Collieries; while Freeman Lank and David Oliver were heard for the defence. After hearing the evidence, His Honor decided to reserve judgment.

Another case heard on Wednesday, but not completed, was that of Mrs. J. R. Rudd, of Burnis, versus William J. Cole, of Bellevue. This was an action taken by Mrs. Rudd to recover the sum of \$300, the amount of an agreement entered into with W. J. Cole for the purchase of a heating plant which had gone through the big Bellevue fire on August the 28th last. From the evidence we gathered the following: That last fall Mr. Cole was approached by Mrs. Rudd with a proposition for the sale of the heating system of the old Southern hotel, and without thoroughly examining the property an agreement was entered into whereby Mr. Cole was to purchase the outfit for the sum of \$300, half of which was to

be paid at that date and the balance \$70 to Alex. Moroney and \$80 to Mrs. Rudd at a later date. The morning after the contract had been entered into, Cole examined his purchase and discovered that two sections of the furnace were not as represented to him. He immediately proceeded to the Union bank to stop payment of the cheque, and wrote Mrs. Rudd at Lethbridge, informing her that he had cancelled the agreement and stopped payment of the cheque. To this letter he received no reply and heard nothing more until present proceedings were instituted. Now Mrs. Rudd produces the original copy of agreement and the cheque, both of which bear Cole's signature, and demands that the agreement should be lived up to. Witnesses were heard for both sides, and the case was adjourned in order to gather further evidence. J. E. Gillis appeared for complainant, and D. MacKenzie, of Macleod, for defendant.

A couple of small-debt cases were heard and disposed of, in which Thomas Ede and J. E. Gillis appeared for complainant and defendant respectively.

**WILLIAM JOHN EVANS**  
Third son of Mr. and Mrs. Wm. O. Evans, of Blairmore, now a prisoner of war in Germany.

**COLEMAN TOWN BAND**—Music for Dancing. Any number of players supplied. Apply to G. Beddington, secretary.

## Cowley Military Y.M.C.A.

Union Bank of Canada,  
Cowley, Alta., May 29, 1918.  
The Editor  
The Blairmore Enterprise,  
Blairmore, Alberta.

Dear Sir:

Will you kindly insert in next publication of your paper the results of the recent Y.M.C.A. Campaign in Cowley and surrounding districts, as follows—

"The Committee in charge of this Campaign wish to extend their thanks to the public spirited citizens who contributed and also gave their time and care and aided generally in making the campaign a success. The following districts gave most loyally and are deserving of special mention; Cowley, Lundbreck, North Fork, Maycroft, Livingstone, Tennessee and Tanner. The following amounts resulted:

Total number of Subscribers	195
Amount of Subscriptions	\$1,344.50
Amount paid in Cash	1,065.50
Balance pledges to be paid	279.00

The names and addresses of those who have subscribed have been forwarded to the District Headquarters at Calgary."

Thanking you in anticipation, I remain, yours very truly,  
B. O. MORROW,  
Secretary-Treasurer,  
Cowley District.

Inspector Torrie was in Blairmore on Tuesday and Wednesday of this week.

## Frank Military Y.M.C.A.

Following is a list of contributors to the Military Y.M.C.A. through the Frank Branch of the campaign, totalling \$245.00, and acknowledged by the treasurer, Mr. J. J. Murray:

Bohemian Subscribers—Malina Co. \$4.00; E. Dominik \$2.00; J. Vysokid \$1.00; F. Weir, J. Horn, V. Bieha, F. Pokorney, M. Soukup, F. Horjei, V. Buticka, F. Malec, E. Dypolt, H. Novotny, N. Moris, L. Slich, M. Pauluck, M. Masur, R. Kroll, J. Lejack, \$1.00 each; J. Ganaszko, 70 cents; F. Andel, J. Semrava, F. Huml, F. Ehl, A. Poch, A. Corney, R. Corney, J. Jilek, M. Beranek, T. Potock, F. Jilek, F. Corney, V. Andrick, T. Chaloupka, C. Slopek, J. Ruzac, C. Cisek, V. Utendorky, F. Hunda, L. Herman, V. Slopek, T. Slopek, F. Vypora, J. Wagner, S. Norakovic, J. Bachara, J. Mottl, J. Potrak, M. Putich, F. Paters, F. Namera, V. Kotek, V. Kubica, M. Janus, J. Sterba, J. Malec, G. Urbasa, 50 cents each; K. Zemek, J. Weber, K. Holub, J. Teichinsky, T. Paters, V. Kroll, F. Cizek, 25 cents each; F. Kuchner \$1.50; proceeds of Bohemian dance of May 24th \$16.35—Total \$61.50.

The following citizens of Frank contributed to the fund: John Brown \$10.00, Capt. Hunt, Capt. Ritchie, J. J. Murray, M. Hind, G. Pattinson, G. J. Tompkins, Wm. Cameron, H. Cameron, H. Moore, C. Rice, A. L. Blair, T. J. Moore, \$5.00 each; I. Murdoch, Rev. W. T. Young, James Naylor, A. Sherring, Miss Crough, Luke Lindoe, \$3.00 each; Mrs. Jolly, Mrs. Coupland, A. Moe, T. J. Murphy, Robert Cummings, Mar. Fog, Allan Young, A. Erickson, D. Ave, A. Chanard, \$2.00 each; A. Ruz, \$1.70; G. Montalbetti \$1.50; C. C. Snowden \$2.00, Sundry amounts \$70.00.

It is estimated that over 3,000 acres of cedar are cut down annually to provide material for lead pencils.

We still have a few lines of  
**Men's All-Wool and Well-Tailored Suits at \$35.00**  
Navys, Grays, Browns, Checks and Tweed Mixtures

## Cleveland Tractor

THE OWNER of a Tractor like this need not feed horses the year around. This Tractor is equal in power to three teams, but it eats only when it works.

Three teams require three men to drive them. The CLEVELAND TRACTOR is a one-man outfit—it SAVES HORSE FEED AND MEN'S WAGES. Are you going to continue your present high costs, or are you going to get a CLEVELAND TRACTOR?

### THE CLEVELAND TRACTOR

Will pull two 14-hp bottom end trawls. Travelling on its own tracks, this sturdy little tractor will go practically anywhere—through gumbo, sand and gravel—as has hundreds of square inches of continuous traction surface.

It has horse power at the drawbar gives power for all farm hauling; and 20 horse power at the belt gives power for all stationary farm work.

### The Cleveland Tractor

**SPECIFICATIONS**  
Motor—4-cylinder, 3.4 in. bore, 5.2 in. stroke, protected overhead valve.  
Wheels—12 at drawbar, 12 at rear.  
Length—56 inches.  
Width—20 inches.  
Height—32 inches.  
Weight—less than 3,200 pounds.  
Track—Circle—12 feet.  
Track—Length (each side) 20 inches, width 6.5 inches.  
Traction Surfaces—More than 1,400 square inches.  
Clearance—15 inches.  
Fuel—Petrol—Diameter 1 1/2 inches, face 6 inches.  
Suggestion—Use 100-200 cc.

## SETTLEMENT OF OUR IDLE LANDS QUESTION OF VITAL IMPORTANCE

LARGE AREAS ARE IN HANDS OF SPECULATORS

Twenty Million Idle Acres of Arable Land in the Three Prairie Provinces, a Condition Which is Holding Up Productive Effort in a Time of National Stress

A short time ago Dr. J. G. Ruthford, addressing a meeting at Calgary, is reported to have made the statement that although there are about 80,000,000 acres of arable land in the province of Alberta, and although it is now practically impossible to find a desirable homestead, there are under cultivation only 5,000,000 acres.

Mr. J. Bruce Walker, commissioner of immigration at Winnipeg, authority for the statement, that there are 20,000,000 acres of arable land in Manitoba, and that in Alberta in the possession of railway companies, the Hudson Bay Co., and other large corporations.

The total land area of the province of Saskatchewan is placed at 155,764,100 acres. Of this amount 94,000,000 acres are estimated as being available and fit for crop production, but only 36,800,000 acres are at present occupied as farm land, and of this amount only 19,642,000, or about 14 per cent, is in crop. The remaining 16,678,042 acres were in crop last year. In other words, out of 94,000,000 acres estimated as being available and fit for agricultural production, 80,000,000 acres were not in crop last year.

With almost 60,000,000 acres of arable land in Saskatchewan unoccupied by the farmer, and with 5,000,000 acres now available for homestead entry, and generally speaking, this homestead land is so far removed from railway and other marketing facilities as to be impracticable for immediate occupancy and development.

There is only one conclusion that can be drawn from these figures, says the Regina Leader, and that is that much of this land is in the hands of speculators, who secured it at a very nominal price, and who are holding it for sale at unreasonably high prices with a view to becoming rich out of it, not as a result of their own labor, but purely by parasitic speculation.

Speculation of the situation in Alberta—and what is true of Alberta is true of Saskatchewan as well—the Alberta Farmer declares that the land can only be had by paying a big price for it, and yet the holders of this uncultivated land have done nothing, and will do nothing, to help increase its value, and refuse to make any productive use of it at a time when the whole world is crying for food.

This condition of things, which is paralyzing productive effort and the development of these western provinces, calls for action on the part of both the Dominion and Provincial governments. In regard to some of these matters the provincial government, calls for action on the part of both the Dominion and Provincial governments. In regard to some of these matters the provincial government, calls for action on the part of both the Dominion and Provincial governments.

Mr. J. Bruce Walker urges that the lands which are now held by railway companies, the Hudson Bay Co., and other large corporations, which obtained them from the Dominion, should be utilized by the federal authorities for the return of soldiers who will undertake farming under the Soldiers' Settlement Act.

And force is added to this suggestion by the statement that the bulk of these 20,000,000 acres are situated reasonably near to railways.

She said the still white form beside those which had been before. Neither sold nor sold forced its way from her heart; throbbing as though it would burst. Suddenly a cry pierced the air—she was reading shriek! Then silence prevailed. Presently another cry, more terrible than the first arose. Then she was still save for a low gurgling, which seemed to well up from her very soul. Quietly she rose and walked away. She will lay another egg tomorrow.

## Non-Essential Industries

The British Method of Dealing With Them and With Labor Questions

The policy followed by the British government for the regulation of non-essential industries eliminates many of the difficulties experienced by our manufacturers under the present inefficient system. In England and in industries are considered non-essential that are not directly necessary for the successful conduct of the war, but which become an industry is non-essential it is by no means discouraged or forbidden, provided they are not so essential that they are required in some other industry manufacturing war materials. On the contrary, all kinds of businesses, have been encouraged to go on exactly as in peace time, subject only to regulations relating to raw materials and labor for the war, of course, in England, and, whenever required for the making of war materials, all industries are engaged through government employment agencies, which makes the control very simple, and every manufacturer may know on inquiry, in any class of metals, or in any other industry, because all of these materials are required for the war, and the government is not to spare. But even small manufacturers in the machine industries have given war contracts so that their shops are usually well filled with work, even if they have been forced to give up their regular line of manufacture.

The manner in which Great Britain has handled the labor problem also points a lesson for us. Both labor and capital are governed by the government, and this act, which is not adopted by a number of politicians. Every paragraph in it has been accepted after it had been carefully considered by the government officials, the manufacturers' association, and the labor union officials in a joint conference. This act places all factories making war materials theoretically under government control, although this control is exercised only in cases it becomes absolutely necessary.

What a blessing to the Indians of the north and the north-west, the entrance of Thy word bringeth understanding, it giveth light to the simple."

How very true are the Psalmist's words more fittingly illustrated than the northland latitudes of Canada.

That cornerstone of all civilization, the Bible, has been circulated among the Indian tribes. Much more is remaining to be accomplished. The Bible is the one only means of enlightening the people of the northlands which can be brought to a plane of higher civilization.

The name of John Sinclair, a once little Indian boy at Oxford House, will ever be remembered among the archives of northland history.—By J. D. Athelney Evans.

As a result, there have been but few serious strikes in Great Britain since the war began, and none of them has lasted for more than a week, or has any of them been due to a question of wages.

## OUR WHEAT GROWING POSSIBILITIES BETTER THAN OTHER COUNTRIES

GREATER PRODUCTION NOW A VITAL NECESSITY

Estimated That If One-Fourth of the Suitable Land in the West Was Under Cultivation, Canada Could Annually Produce 812,000,000 Bushels of Wheat

The total yield of wheat in these eighteen countries, which of course includes Canada and the United States, was taken for the five-year period named was 2,183,551,000 bushels, while the average per acre was 13.83 and 15.64 bushels, respectively. But besides the diminished yield there is the destructive work of the German submarines, which make a specialty of at least trying to sink wheat-laden ships, thereby adding to their reducing food quantities required by the allied countries in Europe, each of which is a large importer of wheat.

Canada's potential possibilities in wheat are greater than those of any other country in the world, owing to the fact that Canada has the greatest available area of uncultivated land.

Mr. Wm. Sinclair, the then director of Dominion Experimental Farms, estimated that one-fourth of the available land in Canada was under cultivation. Canada could annually produce 812,000,000 bushels of wheat, which would be a population of thirty million.

Wheat growing was naturally one of Canada's earliest industries. The initial efforts were made as long ago as 1605, when a field at Annapolis Royal, Nova Scotia, was set apart for its cultivation. About the middle of the nineteenth century a marked development took place in the production of wheat in Canada. The total yield in Upper and Lower Canada increased from 4,255,000 bushels in 1840 to 16,238,733 bushels in 1915. The latter quantity 12,692,802 bushels was credited to Upper Canada, which led the country in wheat production.

Canada to report to this government at Washington that "there is probably no country where there is so much wheat grown in proportion to population and the area under cultivation as in Canada, west of Kingston." The per capita production in Upper Canada at that time was 15.3 bushels.

Canada's modern period in wheat production began, of course, with the settlement of the Great West. Forty-seven years ago the total quantity of wheat produced in the Dominion was 16,238,733 bushels, but by 1915 it had increased only to 12,692,802 bushels. From that time forward the production of wheat in Canada, in 1915 the maximum of 32,542,000 bushels was attained. Owing largely to adverse climatic conditions and in part to a lack of labor, the crops of 1916 and 1917 were less bountiful, the yield being 26,787,000 and 23,547,000 bushels, respectively, although as far as the latter was concerned there was some compensation in the fact that the average yield in quantity was made up in quality, being in this respect the best on record. From the year 1910 to 1917 the average yield was 29.15 bushels, compared with about 29 in 1915. In the United States last year the yield was 9.5 bushels per acre.

That a more than usually strenuous effort will be made this year to increase the production of wheat there can be no doubt, its necessity as a factor in winning the war being generally recognized by farmers throughout the Dominion. Labor is still scarce, but tractors and other classes of farm machinery are more numerous. It is estimated that in the West the increase in acreage will be about twenty per cent.

If Nature is as beneficent as the human element is active we may at least hope to reach the record yield of 1915 will be at least equalled.

TORONTO CANADA

**Cause of Early Old Age**  
The celebrated Dr. Michonoff, an authority on early old age, says that it is caused by poisons generated in the intestines. When your stomach digests food properly it is absorbed without forming poisonous matter. Poisons bring on early old age and premature death. It is 20-30 years of "Selge's Syrup" after meals makes your digestion sound, so

**Urge the Cottage Cheese**  
Pound of Cottage Cheese Has the Same Food Value as a Pound of Meat

To encourage the use, as well as the making of cottage cheese, a cheap and palatable substitute for meat, the United States department of agriculture has launched a campaign in which nearly a hundred field workers will take part, and which is to carry to every state in the union this lesson.

Cottage cheese is made from skim milk—now largely wasted or fed to animals. A pound of cottage cheese has the same food value as a pound of meat. Make cottage cheese; save the meat for our soldiers and the allies.

Three of the big divisions of the department of agriculture are working in the campaign, which also has the co-operation of the United States food administration.

**Pills of Attended Value**—Parmer's Vegetable Pills are the result of careful study of the properties of certain roots and herbs, and the action of such as sedatives and laxatives on the digestive apparatus. The success the compounds have met with attests the value of their work. These pills have been recognized for many years as the best cleansers of the system that can be got. Their excellence was recognized from the first and they grow more popular daily.

**The Age of the World**  
The age of the world not from the beginning, but from the time it had been fit for habitation, is about 100,000 years, says Dr. W. H. Harvey McNaughton, speaking to the Royal Canadian Institute at Toronto recently.

**Irish-American Gratitude**  
The Irish-Americans who are urging on congress a resolution virtually condemning Great Britain are basking in a safety secured for them by the activities of the British agent. —From the Philadelphia North American.

**Red-blooded men of courage are on the firing line**—and there are many anemic, weak, discouraged men and women left at home.

At this time of the year most people suffer from a condition often called Spring Fever. They feel tired, worn out, before the day is half thru. They may have frequent headaches and sometimes a "plummy" or pale skin.

Blond people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the springtime of the year, should try the refreshing tonic powers of a good laxative and blood purifier. Such a one is extracted from Blood Root, Golden Seal and Stone root, Queen's root and Oregon Grape root, under up with chemically pure glycerine and without the use of alcohol. This can be obtained in ready-to-use tablets or fifty-cent vials, as druggists have said it for fifty years as Doctor Pierce's Golden Medical Discovery. It is a standard remedy that can be obtained in tablets or liquid form.

Witness, Orr—Dr. Pierce's Golden Medical Discovery and his "Pleasant Pills" are wonderful medicines for home use. I used to suffer from indigestion, bloating, and aches in the head, but since I have taken Dr. Pierce's Golden Medical Discovery these conditions have left me. I can now eat and sleep as well as I did when I was suffering from these troubles. I am a grateful witness to the thousands of people who have been cured by Dr. Pierce's Golden Medical Discovery. I am Dr. W. N. U. 1210

### Women Spies

Germany Has One Hundred Thousand Paid Women Spies in All Walks of Life

"The German army of peaceful penetration," the name given to the thousands of the talented spies in all countries and on which ten million dollars has been spent yearly for a decade, is composed largely of women. It is probably no exaggeration to say that Germany alone has one hundred thousand paid women spies in all walks of life. Women of refinement and culture lend themselves to this work as well as servant girls and barmaids. All know that any information given to Germany will bring good returns.

Under instructions of the German spy bureau, hundreds of girls have been sent into Italy and France to enter the conservatories of music. Rome, Naples, Paris and Milan have had more than their share of these spies. Germany traded on French sympathy with Alsace to introduce Alsacian women into France as nurses and school teachers. These women generally were placed in garçons d'hôtel.

But the spy net laid by the entente allies has caught many of these women. One has paid the penalty with her life. Another, who escaped from the same fate to their extreme youth.

It was into the net that Sumey Depay fell. The arrest in Paris of this brilliant actress, who had appeared with Bernhardt, created a sensation. Many refused to believe that she was in the pay of Germany. But evidence had been collected from French secret service to prove her guilt.

Through her husband, Emile Guiller, who had been employed by a manufacturer of artificial limbs, Sumey Depay was able to get into all military and Red Cross hospitals. Again, wearing the uniform of an American Red Cross nurse, she was able to talk to wounded soldiers in the advanced dressing stations. When she returned to Germany, she had obtained much information valuable to Germany.

For many months she carried on her espionage, without molestation, and then her frequent trips to Switzerland aroused the suspicion of the French secret service. She was followed into Bern and Geneva, where she was observed to communicate with German agents. When she returned to France she was arrested. Indications are that Sumey Depay will not be put to death as was Marie Hani, the Oriental dancer, in Germany she would undoubtedly have been hanged or shot as a traitor. The allied countries are lenient to women spies, and this is advanced as one reason why there are so many and why they are so active.

**Boys on the Farm**  
Clear Gain for the City Boy to Have a Summer of Farm Work

The Chicago high school boys who tried farm work last year in response to the request for boy labor on the farms undertook what they thought to be a patriotic duty and made good. The Chicago board of education placed 700 of them and had unsatisfactory reports of only three. The work the boys did was physically and morally. It matured their ideas of responsibility, strengthened their sense of social responsibility, and quickened their patriotic impulses. It broadened them and built up their bodies. They gained valuable experiences, a great deal of hard work, and did something to increase the food supply. We do not imagine that the boy supply will solve the farm labor question, but it is clear gain for the city boy to have a summer of farm work.—Chicago Tribune.

**Must Have Flanders Coast**  
German Navy League Wants It for Future Base Against England

While Count von Hertling continues to repeat that Germany has no idea of extending her territories in the west by means of forcible annexations, the German navy league, in a circular recently received in London, insists upon the importance of the coast of Flanders as the base for German operations against England in the next war. The circular says:

"It is along the coast of Flanders that the road passes to London, the heart of England, and the only English port on the east coast which has hitherto hardly lost an inch of its importance because it cannot be put out of competition owing to its splendid position. But the whole sea traffic through the channel to the Thames would be brought to a standstill by submarines on the coast of Flanders. It would not be impossible to send German submarines to the English coast, to the channel, although they would have to overcome considerable difficulties. It would be pretty hopeless to make a raid with destroyers if our destroyers had to cover the whole coast from the mouth of the Elbe along the Dutch coast. They would be deprived of the possibility of effecting a surprise, and the prospect of success would be greatly diminished."

The navy league also explains that possession of the coast of Flanders is essential for future air raids on England. It says:

"It is obvious that our aircraft cannot do without the coast of Flanders for their attacks upon England and also for the air reconnaissance. Possession of the coast means an extension of the effective range of both our military and our air forces; our naval air forces simply cannot do without it."

### Completely Scrambled

A Free Demonstration of Our New System of Open-air Cooking

A case of new-laid eggs upon his back, the toiler made his way along the pavement.

"Guess what happened?" "He did it!"

The man regarded the scattered debris of shells and running flocks. Then he proceeded gingerly to collect the few eggs that had remained unbroken.

"A passing pedestrian volunteered a shoving word."

"My poor man!" he exclaimed. "Have you dropped your eggs?"

"Oh, no, sir!" he answered, acidly. "No, indeed! I'm just giving a free demonstration of our new system of open-air cooking. I'm making an omelet!"

### CHILDHOOD CONSTIPATION

Constipation is one of the most common ailments of little ones, and unless relieved may become chronic and baby's health for all time become impaired. Nothing can equal Baby's Own Tablets in regulating the bowels. It is a mild, safe, effective, easy to administer and never fails to be effective. Concerning them Mrs. Emile LaChapelle, Terrebonne, Que., writes:—"I have used Baby's Own Tablets for my baby who was badly constipated and they quickly relieved him. All mothers should keep a box of these Tablets in the house."

The Tablets are sold by all druggists or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Germany Wanted War

White Paper Shows Kaiser Preparing for War in March, 1914

Repeated declarations of the German emperor and Hindenburg and Ludendorff, that the war was forced on Germany, and assertions from the same sources that Germany was taken by surprise by the Russian mobilization, are partly untrue, according to certain papers taken from Capt. von Papen, late military attaché at Washington.

Among the papers which have been published by the British government in a White Paper, appears a letter from R. von Wild of the German war ministry in Berlin to Capt. von Papen, seeking information regarding the best means of blowing up railroad trains. In the event of an outbreak of the war, the significant part of this letter is written March 12, 1914, about five months before the outbreak of the war. This letter says: "According to newspaper reports several railway trains were blown up by revolutionaries during the troubles in Mexico. In order to form an opinion whether, in the event of an European war, explosion of this kind would have to be reckoned with, it is requested that if possible, information should be obtained as to how these attacks have been carried out. Were mines and explosives placed in lines which were little guarded, or were the attacks carried out on the train by igniting a charge of dynamite, or by the employment of infernal machines?"

Capt. von Papen, replying from Mexico, says he is now known that he was industriously planting the seeds of German propaganda, did not regard the operations of the Mexican revolutionaries as of any particular value, for four months later he wrote from Mexico City: "I am convinced from personal evidence that all the recent cases of destruction of railway lines by explosion were brought about by buying dynamite under the line itself and then igniting it by an electric current as soon as the train had reached the appointed place. I consider it out of the question that explosions prepared in this way would have to be reckoned with in an European war. They are only possible on lines that are ill-guarded, which, as in this country, often pass for miles through revolutionary districts, and have no protection other than a police train."

"Infernal machines, so far as I know, have never been employed."

Another letter to von Papen from the manager of the Potsdam branch of the Disconto Gesellschaft, has this postscript:

"P.S.—We have never before seen such preparations for war as are being made at present in Germany. Government stocks today tell one percent. Kind regards—R. Mimmel."

"P.S.—We have never before seen such preparations for war as are being made at present in Germany. Government stocks today tell one percent. Kind regards—R. Mimmel."

### Horsepower of Windmills

May Find It Desirable in the Future to Get Power From the Air

The suggestion is often heard that the windmill should be used for power purposes on a large scale. To try the idea a single mill for power purposes was built in the future to get power from the air. A large mill running in a strong wind will seldom develop as much as five horsepower. If its power can be steadily stored, as by a storage battery, and then used at a higher rate for short periods, it will do very well. One of the best types of windmill, steel, 12 feet in diameter, in a 25-mile wind develops only one and a half horsepower. The 16 foot mill under the same conditions develops about two and a third horsepower. Europe uses windmills in batteries, a number of mills working together to get power for purposes, and it is probable that in the future to get power from the air.

### The Old British Spirit

When 'Words and Speeches No Longer Matter'

Had a Chatham been in parliament with this great battle in progress we cannot imagine him saying that there was no noble spirit in the "anxiety" or tremulously explaining that our generals had not been surprised. He would have spoken upon a braver note. He would have said that his government and his country rested, as upon a rock, on the skill of our generals and the valor of our soldiers, that our army had met the enemy before, when we were weaker and they stronger than now, and that he had no fear of anything the enemy could do. Such is the old British spirit, and we rejoice that it lives in our army today, although it seems to have deserted some of our statesmen. At this great hour in the nation's destinies, when the fate of England rests on the balance between victory and defeat, we see what matters is the spirit. It is the British spirit, the old dogged, invincible fighting spirit, the spirit of a nation that lives in our army and navy and is saving the British nation from disaster. We live in times when words and speeches no longer matter, they are being tested by the tests of real life, and we are glad if we can endure these tests it is because the true and brave heart of the British nation is still in its fighting force.—London Morning Post.

### Sciatic Pains

from Exhausted Nerves

Relief is sometimes obtained by external applications or the use of heat, but at the slightest provocation the distressing pains return and from time to time become more severe as the nervous system becomes more exhausted.

The only way to obtain actual cure is by a reconstruction of the wasted nerve cells, and this is best accomplished by Dr. Chase's Nerve Food. It need not cost you much to restore vigor to the nervous system, but it will take a little patience, particularly at first. After you have used a few boxes and got the building-up process established you will find improvements from day to day which will encourage you to keep up this treatment until the nervous system is completely restored.

### Dr. Chase's Nerve Food

50 cents a box—do not pay more—at all dealers or Edmondson, Bates & Co., Ltd., Toronto. On every box of the genuine you will find the portrait and signature of A. W. Chase, M.D., the famous Nerve Food author.

**Vegetable Drying**

Evaporating Process Bids to Become of Permanent Importance

In the Western States a leading American evaporating company launched an advertising campaign to popularize a package of combination of six soup vegetables, sold at retail at ten cents. The dried vegetables have met with instant favor, and an enormous consumption is forecasted.

British Columbia has at New Westminster what is said to be the greatest vegetable drying plant on the continent. It has a daily capacity of over 300 tons, and operated day and night last winter. At other points in the Fraser Valley and elsewhere a number of plants were established when war orders were placed.

In British Columbia there has been much complaint over prices paid by evaporators, many producers believing that the concerns took unfair advantage of general market conditions. The outlook was also very much unsettled last winter when war orders failed to arrive, and drying plants shut down. If the industry outstrips war orders and manufacturers to satisfy a widespread general demand, however, early difficulties are pretty sure to be smoothed out and a profitable trade created for a contract year-in and year-out on the contrary basis. Certain it is that the evaporating process bids to become of permanent importance to the agriculture of this province.—J. T. B. in Fraser Herald.

**Drives Asthma Like Magic.** The immediate help from Dr. J. D. Kellogg's Asthma Remedy seems like magic. Nevertheless it is only a natural way. The smoke or vapor, reaching the most remote passage of the affected tubes, brushes aside the trouble and opens a way for fresh air to enter. It is sold by dealers throughout the land.

**Efficiency**  
The bravery and simplicity of the native soldiers of India is proverbial in the British army. One of these, in the campaign in German East Africa, was in charge of a railway station, where he was besieged by the enemy. This was the wire he sent to his headquarters:

"One hundred Germans attacking station. Send immediately, one rifle and one hundred rounds of ammunition was mixed with the line."

### Ancient Mortar

Examination of Great Wall of China Shows That the Mortar Was Stronger than Bricks

An examination of the bricks and mortar in the great wall of China was recently made at Shangkaiwan by J. C. Witt, a chemist attached to the bureau of science, Manila. Mr. Witt reports that the bricks are so weak that pieces may be easily broken off with the fingers. They are much larger than ordinary building bricks, grey in color and resemble pumice somewhat in structure. The mortar, which is pure white under the exposed surface, is much stronger than the bricks. In the sun only was confirmed by laboratory tests. If they had been dried in a kiln the appearance of the wall would have been considerably different and its strength and durability would have been much greater. The general appearance and analysis of the mortar indicate that no sand was mixed with the lime.

Enforcement of the Canada Food Board's regulations as to food conservation has been placed in the hands of the police machinery of the municipalities and of the different Provinces throughout the Dominion.

It is the duty and privilege of the Provinces to enforce federal laws and the Orders of the Canada Food Board have the effect of federal law, being passed upon authority of Order issued by the Privy Council and published in the Canada Gazette. It, therefore, becomes the duty of police officers throughout the Dominion to acquaint themselves with these regulations regarding our food supply and to see to it that they are obeyed. At this stage of the world's food situation, when 4,750,000 people in Europe have starved to death as compared to 4,250,000 soldiers who have died as the result of battle, it is beyond cavil or dispute that these food regulations are absolutely necessary. Indeed many people in communication with friends in England or in France think our Canadian regulations mild in view of what people on the other side are undergoing. Particulars as to the regulations are given in this issue. It is hoped that the public and vigilant enforcement of them by the officers of the law.

In cases of convictions secured by the municipal police officers, it should be noted that when these convictions result in the imposition of fines, the money from these fines is to be paid to the municipal treasuries, and similarly in the cases where Provincial officers secure convictions. The Canada Food Board has authorized these Orders in official form throughout the police machinery of the various Provinces beginning with the Attorney-General and continuing through the list of Crown Attorneys and Crown Prosecutors. In some Provinces the Chief Constables have also received copies of the various Orders affecting the public. As a result, throughout Canada of recent weeks, there has been a crop of convictions. In all cases the Magistrates have imposed the penalties as provided. These run from \$100 to \$1000 in fines or imprisonment up to three months or both. Restaurant keepers, who have served meat on prohibited days and hours, served sugar on the tables of wasted food, have been brought to task and the wide spread publicity this has entailed will do a great deal more to assure conservation of food in public eating places than any single case.

The Anti-Loafing Law, also bearing upon our war-time food production, has likewise been enforced. Magistrates have seized the opportunity of dealing with loafers, tramps and "sports" by putting them to work on the farms. "Non-essential" industries have been interpreted by some Magistrates into more or less definite groups and men who had no better excuse than employment in said questionable industries have been ordered to get into more useful occupations. In Winnipeg a great change has been observed in the streets since this law went into effect. The idlers and loafers have disappeared.

## No Danger Now of Allied Line Being Pierced

London, May 29.—In many respects the German attack on the Aisne and its results bear a striking similarity to the opening of the German offensive in March. The present movement, however, differs in a most vital point, namely, that on this occasion there never has been, as was the case in March, danger of the allied line breaking. On the contrary, as soon as it was found the allies were unable to hold the crest, orders were given for the retirement to the Aisne and the Anglo-French force made an orderly retreat in perfect unity.

Points of similarity are that again the Germans discovered a weak point in the allied line and attacked in a superiority of five to one. Gas also again played an important part, the allied forces being compelled to wear gas masks for hours at a stretch. The brunt of the German onslaught was borne by the sixth French army under General Meist.

Two of Germany's newest and largest submarines have been sunk in the Mediterranean.

## Alterations and Erections of School Districts

Several new school districts have recently been erected in this corner of the province, one gazetted being that comprising Sections 2, 3, 4 and 5 in Township 7, Range 2, Section 26 and those portions of Sections 24 and 25 lying north of the South Fork of the Old Man River in Township 8, Range 3, Sections 31, 33, 35, 34 and 35 and those portions of Sections 23, 26, 27, 28, 29 and 30 lying north of said river in Township 6, Range 2, west of the fifth meridian, and known under the name of The Fir Grove School District No. 3660.

Also a school district, comprising Sections 3, 4, 5, 6, and that portion of Section 2 lying west of the South Fork of the Old Man River in Township 7, Range 1; Section 1 in Township 7, Range 2; Sections 25, 26 and those portions of Sections 13 and 24 lying north of the said river in Township 6, Range 2; Sections 28, 29, 30, 31, 32, 33 and those portions of Sections 18, 19, 20, 21, 22, 27, 29 and 35 lying north and west of the said river in Township 6, Range 1, west of the fifth meridian, to be known under the name of The Temponay School District No. 3661.

Also Sections 19, 20, 29, 30, 31 and 32 in Township 8, Range 2; Sections 23, 24, 25, 26, 35 and 36 in Township 8, Range 3; Sections 1, 2, 11, 12, 13 and 14 in Township 9, Range 3; Sections 5, 6, 7, 8, 17 and 18 in Township 9, Range 2, west of the fifth meridian, to be known under the name of The Chapel Rock School District No. 3662.

Sections 10, 11 and 12 in Township 7 have been added to Lundbreck School District No. 1971.

Those portions of Sections 30 and of the west half of Section 29, lying south of the lake in Township 50, Range 10, west of the fourth meridian have been withdrawn from the Willow Grove School District No. 1710, the order to take effect December 31st next.

Section 5 in Township 7, Range 2, has been withdrawn from the Burns School District No. 2364.

## How To Treat The Local Editor

Expect him to be a prophet, mind reader, and encyclopaedia.

Never tell him anything of interest that he might print in his paper unless it contains a free advertisement for yourself.

If he asks if you know any items of interest tell him no, and then if he does not publish the fact of your grandmother having died in the old country last week, you will have no more news to tell him his paper is no good and never has any news in it.

If you tell him anything giving him more information and then chide him for it, or if he finds you out in time and gives you a rap, get mad.

Or tell him only part of what he asks and then if he does not print the thing just as it happened, call him down for it.

If there is anything you really want printed, never send it in the office until a few hours before the paper should be in print.

If he should work overtime very often just to oblige, tell him he must be making lots of money and scold him for being too mean to employ help.

If he has a few more items sent in from another district than from the hometown one week, tell him he is boasting places outside more than his local district and threaten to boycott him if his paper does not contain a little more home news and come out earlier in the week.

Expect him to give to every charitable cause brought to his notice and do a whole lot of work for nothing until he presses you for it and then get mad and discontinue it because he asks you to pay for arrears.

If he sends you the paper after your subscription expires, let it keep on coming, and then tell him you did not want it. If he discontinues your paper at the expiry date tell him it is a gross reflection on your integrity.

If he prints an advertisement you don't like, don't advertise your own business to counteract it, but play the part of a school boy and refuse to play the game.

Expect the editor to pay an advanced price for everything he uses, but "kick" when he asks an advanced price for his products.

Expect him to be fearless in his criticisms, but let him understand that he must always respect you.

And finally, if you cannot get at the editor to aze him, vent your wrath on his wife, or his house, his ox, his ass, or anything that is his.

# MILITARY SERVICE ACT, 1917

**PUBLIC NOTICE** is hereby given that, by the effect of the regulations of the Governor General of Canada in Council of the 20th of April, 1918, and the Proclamation of 4th May, 1918, recently published, every male British subject resident in Canada, born on or since the 13th of October, 1897, who has attained or shall attain the age of 19 years and who is unmarried or a widower without children must, (unless he is within one of the classes of persons mentioned in the schedule of Exceptions to the Military Service Act) report as hereinafter directed on or before the 1st day of June, 1918, or within ten days after his 19th birthday, whichever date shall be the latter.

Such report must be in writing and must give his name in full, the date of his birth and his place of residence and also his usual post office address.

The report must be addressed to the Registrar or Deputy Registrar under the Military Service Act of this Registration District in which he resides (see below) and shall be sent by registered post, for which no Canada postage is required.

Young men so reporting will not be placed on active service till further notice. They must, however, notify the appropriate Registrar or Deputy Registrar of any change of residence or address.

On receipt of the report an identification card will be forwarded by the Registrar which will protect the bearer from arrest.

Punctual compliance with these requirements is of great importance to those affected. Failure to report within the time limited will expose the delinquent to severe penalties and will in addition render him liable to immediate apprehension for Military Service.

ISSUED BY THE DEPARTMENT OF JUSTICE, MILITARY SERVICE BRANCH, this 15th day of May, 1918.

## NOTE: The men required to report should address their reports as follows:

**ONTARIO**—To the Deputy Registrar under the Military Service Act, 1917, London, if they reside in the County of Essex, Kent, Lambton, Elgin, Middlesex, Oxford, Waterloo, Wellington, Perth, Huron, or Bruce.

To the Registrar under the Military Service Act, 1917, Toronto, if they reside in the County of Lincoln, Welland, Haldimand, Norfolk, Brant, Westwinds, Halton, Peel, York, Ontario, Grey, Dufferin, Simcoe, or in the Districts of Muskoka, Parry Sound, Algoma and Nipissing north of the Mattawa and French rivers (including the Townships of Ferris and Bonfield).

To the Deputy Registrar under the Military Service Act, 1917, Kingston, if they reside in the County of Durham, Northumberland, Victoria, Peterborough, Hastings, Prince Edward, Lennox, Addington, Frontenac, Haliburton, Carleton, Dundas, Glengarry, Renfrew, Russell, Stormont, Grenville, Lanark, Leeds, Prescott, or the District of Nipissing south of Mattawa river (exclusive of the Townships of Ferris and Bonfield).

To the Registrar under the Military Service Act, 1917, Winnipeg, if they reside in the Districts of Kenora, Rainy River, or Thunder Bay.

**QUEBEC**—To the Registrar under the Military Service Act, 1917, Montreal, if they reside in the County of Jacques Cartier, Hochelaga, Laval, Veaudreuil, Soulanges, Napierville, Beauharnois, Chateauguay, Huntingdon, Laprairie, Argenteuil, Terrebonne, Two Mountains, Montcalm, L'Assomption, Joliette, Berthier, Maskinonge, Beaufort, Riviere, St. John, Ivesville, Missisquoi, Bromes, Shefford, Rouville, Chambly, Vercheres, St. Hyacinthe, Bagot, Drummond, Richelieu, Yamaska, Nicolet, Arthabaska, Sherbrooke, and Stanstead.

To the Deputy Registrar under the Military Service Act, 1917, Quebec, if they reside in the County of Wolfe, Richmond, Compton, Beauce, Beloeil, Beauport, Dorchester, Gaspé, Kamouraska, Lévis, L'Islet, Charnley, Charlevoix, Chicoutimi, Montmagny, Quebec, Fecteur, Saguenay, L'Assomption, Matane, Magantic, Rimouski and Temiscouata.

To the Deputy Registrar under the Military Service Act, 1917, Hull, if they reside in the County of Timiskaming, Pontiac, Ottawa and Labelle.

**NOVA SCOTIA**—To the Registrar under the Military Service Act, 1917, Halifax, if they reside in the Province of Nova Scotia.

**NEW BRUNSWICK**—To the Registrar under the Military Service Act, 1917, St. John, if they reside in the Province of New Brunswick.

**PRINCE EDWARD ISLAND**—To the Registrar under the Military Service Act, 1917, Charlottetown, if they reside in the Province of Prince Edward Island.

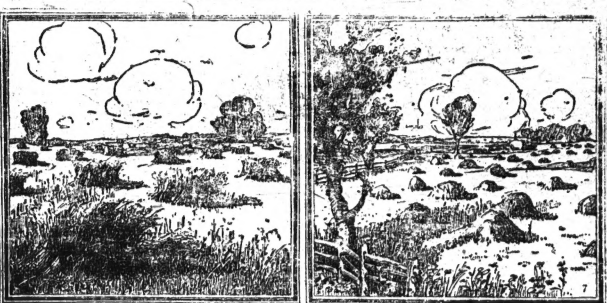

**BRITISH COLUMBIA**—To the Registrar under the Military Service Act, 1917, Victoria, if they reside in the Province of British Columbia.

**SASKATCHEWAN**—To the Registrar under the Military Service Act, 1917, Regina, if they reside in the Province of Saskatchewan.

**ALBERTA**—To the Registrar under the Military Service Act, 1917, Calgary, if they reside in the Province of Alberta.

**MANITOBA**—To the Registrar under the Military Service Act, 1917, Winnipeg, if they reside in the Province of Manitoba.

**YUKON**—To the Registrar under the Military Service Act, 1917, Dawson, if they reside in the Yukon Territory.

## The Ford Saves the Hay and Oats the Horses Eat

IT HAS been estimated that five acres of land are required to maintain one horse for a year, and that the same five acres would produce nearly enough food for two people. If 50,000 Canadian farmers each replaced one horse with a Ford, 500,000 acres would be added to the Nation's source of food supply and enough extra food made available to feed 100,000 people.

Just think what a great service this means to the country at the present time and the benefit to the farmers from the sale of food produced on this acreage.

A Ford car also saves the farmer a week or more of valuable time each year, which can be used for further productive work. The Ford travels three times as fast as a horse and rig—costs less to run and keep, and is far easier to take care of. With labor so scarce and high priced, time means money, so do not delay in getting your Ford.

**Ford**

**Best of Foot Powder****Flakes Very Poor Bread****Flour and Foot Powder Got Mixed and Soldiers Had Good Cause to Complain**

With the American Army in Lorraine, April 4, (the mail)—When flour won't "biscuit," won't "pie," won't "doughnut," won't even "dough," and above all, won't "spicet," there must be something the matter.

And when you've ordered a ton of trench-foot powder and it hasn't arrived, and more cases of "trench feet" are coming in, and your superiors are raising the roof demanding the powder, and you can't get it—again there must be something the matter.

Two captains with three, two lines of trouble in mind met recently. One was a captain in the quartermaster corps. The other was stationed at the front.

Captain X opened the conversation. He told of his trench-foot powder troubles. The particular powder he had ordered was the best thing for trench feet that had been found—but he could not get it for some mysterious reason.

Captain Y came back with his troubles. He had just gotten a batch of flour, and had been deluged with kicks from everybody from the company cook to the French civilians and the Salvation Army.

Now, everybody was trying mixing it with other flour to see if it would work, he said.

"The stuff simply won't do nothing that flour ought to do," was his final cry of anguish.

A light dawned in the eye of Captain X.

"What does this flour of yours look like?"

"Just flour."

"But are you sure it's flour?"

"There's no aniseed, with my outfit, but I take it as such."

Captain X was not on the trail.

"You've got my trench-foot powder, I'll bet a horse," he shot at the quartermaster.

"How much have you got?"

"Who did you sell it to?"

"I got it back, and get it back quick."

There was a dash to the side of the remaining "flour."

Captain X nearly embraced it.

Just then a man from the Italian mission appeared. He explained that they had had visions of a real spaghetti dinner.

But, he added in effect, that with all respect to the American's flour, it wouldn't "biscuit."

It was a case of "flour" from a meat store.

After a few minutes there was a line, and everyone carrying a package of "flour" that wouldn't act as it should.

Knowing that the "flour" had been sold out in fifty pound lots to several times as many buyers, Captain X was fretting over how it was to be gotten back.

Captain Y looked at the line, and concluded:

"I don't think I'll be long getting all your damn foot powder back, and I won't have to go after it either."

**No Tickets On Trains**

Beginning May 22nd no tickets may be sold on C.P.R. or G.T.P. trains.

The order from the Canadian Pacific Railway Board went into effect that morning, and notice to that effect are posted in conspicuous places.

The order further states before the passenger may board the train all tickets must be present.

Instructions also show that an out-calling of each train leaving the station must be made, calling the attention of the passengers to the new rule.

This rule has been in effect for some time, but has not been rigidly enforced

out of some of the larger depots.

At the G.T.P. station in Calgary there is no admittance through the gate to the trains unless tickets are produced, but at some of the smaller stations, or at stations where there are no gates, it has been the custom for late passengers to catch the train at the last moment and secure tickets on board.

In future the conductor will be allowed to sell no tickets, and will have no other alternative in the matter than to put the passenger off at the next station.

This will not apply to stations where the companies have no agents, as travellers from these parts must of necessity purchase their tickets on the train.

The same order provides that all vehicles on trains, except those used for passengers entering or leaving the trains, must be closed while the trains are standing at stations.

In connection with the offer of W. A. Bebe, mentioned in the report of council meeting in our last issue, a slight error occurred.

W. A. Bebe offered the town clear title to lots 1 to 6 in block 9, and lots 5 to 10 in block 8, all in plan 3319-1.

In consideration of rebate of taxes on lots 1 to 4 in block 8, plan 3319-1.

The taxes due on the 16 lots amount to \$1477.76, while the twelve lots offered are assessed at \$2875.00.

This matter will be considered at a meeting of the council on Thursday, June the 13th.

**Sailors Week to Be Observed Throughout Alberta****Commencing On the King's Birthday, June 3rd, and Ending June 8th**

Arrangements are being made throughout the Province of Alberta for a Sailors Week, commencing on the King's Birthday, June 3rd, and ending on the 8th with a Tag Day.

During the week a general appeal will be made to all citizens, men, women and children to contribute something towards assisting the Navy League of Canada in caring for the Widows and Orphans of the men of the Navy and the Merchant Service as well. The committee in charge of arrangements hope to raise at least \$150,000 in Alberta.

Very little to date has been done in Alberta for the Sailors, particularly those of the Merchant Service. The Navy League of England and the Overseas Dominion has undertaken to care for the widows, children and dependents of the Seamen who have lost their lives in defence of the Empire, and will endeavor to educate their children and give them a good start in life. The League is also looking after Sailors' Homes, Schools, Institutes, Asylums, Missions, etc.

The Navy League of Canada is arranging to erect a building at Halifax, N.S., for the Sailors at a cost of \$100,000; and has also contributed \$20,000 to assist the Home on the Pacific Coast and the Great Lakes, besides sending \$10,000 per month to the various institutions in England.

Already the League has forwarded \$500,000—\$250,000 for the Navy and \$250,000 for the Merchant Service. There is a greater work to be done and money is urgently needed.

The Sailors of the Navy saved the Empire. It is large yet through the work of the Navy that Canada is British today. It is largely through the work of the Navy that the Farmers of this country are enabled to obtain the present price for their wheat.

Without the Navy no food could cross the Atlantic, our boys in France could not be fed, and no transients, either from Canada or the United States, could be forwarded.

Any one wishing to contribute can forward to the Editor of this paper, who will see that all amounts are sent to Headquarters, Alberta Division of the Navy League.

In view of the rapid exhaustion during recent years of available Crown Lands in close proximity to the railways, a plan has been suggested by the Department of the Interior for the reservation in the interests of soldier settlement, the desire on the part of prospective settlers to procure land within reasonable distance of a line of transportation has been suggested to the Department of the Interior the listing of the names and addresses of the owners of those quarter-sections of unoccupied and non-producing lands which are lying dormant so far as agricultural production is concerned, the presumption being that in a number of cases the owners would be interested from either a financial or patriotic point of view in offers on the part of prospective settlers to purchase or lease their holdings.

The vital necessity for increasing the acreage under crop makes it essential that assistance be rendered by all agencies that might be instrumental in assisting the "back to the land" movement.

Now that the truth of the somewhat crude expression attributed to Napoleon that "an army travels upon its stomach" is being emphasized more and more as the "Great War" progresses, no better argument could possibly be advanced as to the imperative need for increasing our production which of course entails an immediate increase in the acreage under crop.

Lists are available for distribution covering the various land districts throughout the Provinces of Manitoba and Saskatchewan, those for Alberta to follow at an early date. Applicants should state the district in which they are interested when making application to the Natural Resources Intelligence Branch of the Department of the Interior at Ottawa.

Casualties in the British ranks reported during the month of May reached a total of 166,802. The losses were divided as follows:

Killed or died of wounds, officers 1536, men 20,518; wounded or missing, officers 6182, men 138,566.

British casualties reported week by week have recently been running near the forty thousand mark, evidently representing the losses sustained during the heavy fighting that started with the beginning of the German offensive in March.

The total reported during April was only 62,475 as the lists did not begin to reflect fully the effects of the casualties sustained in relieving the German thrusts in Picardy and Flanders until the beginning of May.

A branch of the Next-of-Kin Association has been formed at Coleman.

**Howe-Farrow**

The following is copied from the *Edmonton Chronicle* of May the 3rd. Corporal Howe is second son of Mr. and Mrs. W. Howe, of Blairmore.

On Sunday the wedding of Corporal Daniel Augustus Howe, of the Canadian Dragoons, to Miss Blanche Iris Farrow, daughter of Mr. and Mrs. William Farrow, of White House, Crossfield, took place at the parish church in that village.

The bride who was attired in grey costume with hat to match, was given away by her father. She carried a sheaf of lilies, and was attended by Miss Dora Barrell, of Hildesheim, (cousin of the bridegroom) as bridesmaid. She wore a purple velvet costume, with hat to match, and also a gold bangle, the gift of the bridegroom.

The ceremony was performed by the Rev. J. A. S. Large, pastor-in-charge of Crossfield. Mr. Alfred Emerson, of Hildesheim, acted as best man. The presents, which were numerous, included a dressing case, the gift of the bridegroom to the bride, who presented him with a silver cigarette case. The wedding cake came from Canada.

After the ceremony a reception was held at the house of the bride's parents. The bridegroom is the second son of Mr. and Mrs. Walter Howe, who previous to emigrating to Canada, lived at Hildesheim.

To hear some people complaining these days one would imagine that Blairmore was simply a cold-storage plant.

Bread crumbs are being collected by school children in certain parts of Austria to be sent to starving children in Croatia.

It is estimated by a parliamentary committee that 50,000 men will be needed for the harvest in Canada, from August 1st to September 1st.

Miss Mary L. Walsh, of the West Canadian Collieries, is enjoying a vacation trip to the Twin Cities, Chicago and other eastern points, via Winnipeg.

Deaths from starvation in Europe are estimated by the United States' Food Administration at 4,750,000 since the war began, as compared to 4,250,000 killed by fighting.

Every pound of food saved by a Canadian citizen is a pound given to the support of our army and our allies. Every pound wasted or eaten unnecessarily is a pound withheld.

Lloyd George says that victory in the war has developed into a race between Hindenburg and President Wilson. Let us back Wilson with every ounce of energy.—Ex.

A British steamer, having on board 900 civilians and one hundred officers, N.C.O.'s, and men of the Canadian expeditionary force, arrived at an Atlantic port on Wednesday morning.

The British transport *Lesawo Castle*, 9,737 tons, has been sunk by an enemy submarine in the Mediterranean, with a loss of 101 lives, including 13 military officers and 79 soldiers of other rank.

Andrew Krynke, aged 37 years, a prosperous farmer of the Macleod district, dropped dead in his field on Saturday morning last, due to heart failure. He came from Holland about eight years ago.

The Fernie Amateur Dramatic Club will present "What Happened to Jones" at the Coleman opera house on Wednesday next, June the 5th. The above club contains some excellent talent and will no doubt draw a good house.

Catherine Stinson, the aviatrix, enroute from Chicago to New York, carrying government mail, met with an accident while attempting a landing two miles north of Birmingham. The machine turned turtle just as it reached the ground, smashing the propeller and damaging one of the wings. Miss Stinson was uninjured.

Boys enrolled as farm helpers in the "Soldiers of the Soil" movement, under the auspices of the Canada Food Board, are doing good work with seedling. In Ontario 15,000 boys have been enrolled; in Manitoba over 1,000 are at work; in Saskatchewan 1,100, in Alberta 624, in British Columbia 540, in Nova Scotia 1,398, in Quebec over 1,000.

The concrete ship "Faith," first of her kind to be built at San Francisco, is speeding over the measured mile course at the Golden Gate. Her test was a signal victory for the advocates of the stone ship, for she exceeded all expectations on her trial trip. She averaged more than 10 knots without difficulty, and is expected will do better than 11 later on. Another welcome disclosure on the trip was the surprising lack of vibration found by the experts who were on board.

Bellevue Happenings

Mrs. S. Humble is on a business trip to Edmonton.

Mr. and Mrs. H. Harrison spent Sunday with friends in Fernie.

Mrs. F. Hansen was visiting her mother in Blairmore on Tuesday.

Mrs. E. Tustian is spending a few days with her parents at Cowley.

Elis Fisher left here on Wednesday for Calgary, where he has since enlisted.

Mrs. F. Bosely has moved into her house recently purchased from W. H. Chappell, Jr.

G. Coupland has moved his family to Bellevue, and is occupying the house vacated by A. May.

David Hutton went to Lethbridge on Monday night, accompanied by his brother, P. H. Hutton.

The Red Cross dance held in the Workers' hall on Tuesday night was well attended and was pronounced a most enjoyable occasion.

E. Tustian has been transferred from Hillcrest to Coleman as assistant agent. W. Cole has accepted the position of assistant agent at the Hillcrest station.

Rev. and Mrs. Peters. left for Edmonton on Sunday night, where the former will attend the Methodist conference. They will be away about three weeks.

A. J. Kelly, who has been principal of the Bellevue school for several years, has, we understand, tendered his resignation, and leaves shortly for Toronto where he will enlist in the aviation corps.

The eldest son of Mr. and Mrs. R. G. Randall met with a rather severe accident on Friday last, sustaining several bad cuts on the legs and body. He is doing as well as can be expected at the hospital.

Fincher Creek's municipal tax rate for 1918 will be 70 mills.

Official announcement has been made that 280,000 men will be called to the colors in the United States during June.

The Germans, in their reprisals against peasant disorders in the Ukraine drowned several villages near Kiev with gas.

Rev. W. T. Young will likely take up duties as pastor of Central Union church on Sunday, June 9th, on which date the union of Sunday schools will take place.

There were 1490 publications in Canada, before R. L. Norman quit publishing the Coleman Bulletin. Of the above number 135 were issued daily, 1017 weekly, and The Bulletin occasionally.

Arrangements have been made between the governments of the United States and Canada for an interchange of farm laborers. Several thousand have already entered the Canadian west under this arrangement.

**Local and General**

Major Wallace Sharpe has returned to Calgary from overseas.

Last month's payroll in Trail, B.C., was very close to \$140,000.

Monday next, the King's birthday, will be observed as a public holiday.

W. S. Black will have charge of the service at Central Union church on Sunday evening.

Mar Joe, having purchased a new wagon, will no longer be troubled with sea-sickness.

Fifteen candidates were implicated into Vulcan Encampment of the I.O.O.F. on Monday evening last.

Sarah Bernhardt is now in Winnipeg, and we understand is booked to appear in Lethbridge sometime in June.

The American transport President Lincoln was sunk by an enemy submarine while returning from Europe.

To hear some people complaining these days one would imagine that Blairmore was simply a cold-storage plant.

## Canada's Fondness For Automobiles

Holds Third Place in the Number of Automobiles in Use

It will surprise most Canadians to know that among the nations of the world their country holds the third place in the number of automobiles in use. In 1917 there were 199,302 cars registered in Canada, an increase of 47,705 over 1916, while the number of new cars registered in that year was nearly 76,000. The increase for 1918 is expected to be on a proportionate scale. One Canadian in every 40 owns a car, and, roughly speaking, there is one automobile for every eight families. Considering that in 1913 there were only 200 automobiles in Ontario, and that in 1917, 84,353 auto licenses were taken out, the increase is nothing short of amazing. A marked feature of the pre-eminence which Canada enjoys is the ever-increasing proportion of motor vehicles which are being taken out by farmers, a fact which in itself affords a strong guarantee that good country roads will soon be the rule rather than the exception—Brantford Express.

## Is War Veteran at Eighteen

Three Years a Machine Gunner With the First Brigade

The "baby" of the latest party of veterans to reach Toronto in point of years, but not of service, was Pte. Ernest Harding, of the First Brigade, a machine gunner with the First Brigade and passing his eighteenth birthday last month. He has been twice wounded.

Getting past the doctors with the 36th Battalion in April, 1915, he spent 16 months up the line in France with the M.G. section, and did defensive work with the "Vickers" "tip-ups" in practically all the big engagements, especially when Fritz came over. He was wounded at Ypres in June, 1916, and finally, at Passchendaele, on November 23 last.

"I went over the top three times before Vimy Ridge," the fact remains that he did not usually go with the first attackers, but everybody went over at the Ridge and I couldn't count the number of times we went over on April 9 and afterwards," said this lad with two good looks on his face.

Pte. Harding's chief interest is in the Distinguished Conduct medal won by his older brother, Sgt. Leonard Harding, of the First Brigade, when he himself was put out of the war. Another brother, Clifford, wounded at Vimy Ridge, is already home again. The family live at 272 Beach road.

"All this bunch would go back again; they can't help it, it's in their bones," said Pte. Harding.

## Is Proud of Her Fine Little Girls

WHY MADAME PEPIN IS GRATEFUL TO DODD'S KIDNEY PILLS

Quebec Lady Tells How Her Children Were Cured of Childhood Weakness and Made Strong and Well.

St. Honoré, Chicoutimi, Que., (Special).—I have two fine little girls, thanks to Dodd's Kidney Pills, and I can't tell how grateful I am. I found out of a full heart that Madame Pierre Pepin, a well-known resident of this place, uttered these words: "I have given Dodd's Kidney Pills to my two little girls," she added, "and now they sleep well and do not wet the bed. They are perfectly cured."

Whether or not kidney disease is hereditary, the fact remains that many children suffer from weak kidneys that are unable to do their full work in the body. The result is that many parents worry their children, when what they really need is a remedy for their kidneys. Dodd's Kidney Pills has been used in Canada for over twenty years, and is a great remedy. If you don't know of the great work they are doing, ask your neighbors.

Uncensored Points It is disloyal to give the enemy points—unless they are bayonet points.—Boston Transcript.

## How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Dr. Williams' Pink Pills. Catarrh has been taken by me, and has become known as the most reliable remedy for this disease. It cures acts through the blood on the mucous surface, expelling the poison from the blood and healing the diseased parts. After you have taken Hall's Catarrh Cure for a short time you will see a great improvement in your general health. Start taking it today. C. H. CLARK & Co., Toronto, Sold by all druggists, 75c.

## Prefers "Yanks" to Sammies

One notices that there is a tendency to call the American soldiers "Yanks" instead of "Sammys." That's a relief.—Cleveland Plaindealer.

## Minard's Liniment Used by Physicians

Model Towns For Disabled Soldiers

Major Mowat Will Propose A Scheme of Community Settlements

Major H. M. Mowat of Parkdale (Toronto) has given notice of a resolution in the commons providing for community settlements for disabled soldiers, with the government acting as financing contractor and designer of soldiers' model villages.

Major Mowat's idea is to have well-planned little towns with houses for the soldiers and their families, where they can engage in making various articles of handicraft such as toys, art objects, etc., formerly imported into Canada. These little manufacturing centres would help to supplement pensions and give congenial and salutary employment to the returned men.

The management of each village will be according to Major Mowat's plan, in the hands of the residents, and individual ability and bent will be considered. The resolution provides that "such communities shall be self-supporting after the initial capital has been expended, and shall be architecturally sanitary and be beautifully supplied with electric power, and that houses be also available for widows and orphans of soldiers commensurate with their pensions and means."

## Co-Operative Wool Marketing Is No Longer an Experiment

Profiting by the success of numerous farmers last season, a larger number are expected to take advantage of the co-operative method of marketing their wool this year. In Manitoba and Saskatchewan, the provincial governments have arranged to assemble the wool, while in Alberta—which has become the greatest wool producing province in Canada—it will be handled in the province by the various wool growers' associations. Last February the sheep owners of the Dominion met in Toronto, Ontario, to form an association, known as the Canadian Wool Growers' Limited, which will act as an over-land wool purchasing agency. This association, being a farmers' organization, the Manitoba government has agreed to give them an opportunity of selling the wool clip of the sheep owners in Manitoba, and also to give the wool to the department of agriculture. A large proportion of the clip of the other provinces will also be sold by the association.

Co-operative wool marketing is no longer an experiment, but has been established unquestionably the advantage to the sheep grower of selling in this way. Selling on grade is a profitable to the grower, because of the educational features. It has shown the farmers how to handle their wool at the best price, and has brought home to them the possibilities of sheep raising in Western Canada.

## Everybody Must Work

Loafing is now illegal. All persons domiciled in our country are now supposed to work or show cause why they are idle according to the provisions of a new law. The law applies to all between the ages of 16 and 60, and heavy penalties are imposed against offenders.

## A MOTHER'S WORK

Is Too Often Followed by Nervous Debility and Shattered Health

Mothers as a rule spend so much time in looking after their children and in household work that they overlook the absolute necessity for that rest and relaxation upon which their health depends. The consequence is that soon they find their health failing, and the daily humdrum of household cares, quickly thin the blood and weaken the nerves. Then back aches, neuralgia, palpitation, and blood, swollen limbs, and a constantly tired feeling, and often symptoms to fretfulness. These ailments are the sign of poor blood, and are the inevitable penalty of overwork and over anxiety in the care of children and the affairs of the household.

Whenever a mother finds her health failing, and her nerves becoming more than she can comfortably manage, whenever extra demands are made upon her strength, she should adopt the safe and simple expedient of enriching her blood with Dr. Williams' Pink Pills. These pills are especially valuable to the nursing mother and the woman worn out with household cares. They renew her blood supply, strengthen her tired limbs, and drive away the headaches and backaches that have made her so miserable. They have restored thousands of dependent women to their normal health, and will do for you as much as they have done for others if you will give them a fair trial.

Mrs. W. F. Burns, Guelph, Ont., says: "A few years ago we had three children in three years which left me so run down and nervous that I was not able to do my work. The doctor told me to take two weeks' rest, but that did not help me. I tried to build me up, but nothing seemed to benefit me. I suffered from a change of scene, and was afflicted with a fear that I would lose my reason. The headaches from which I suffered would not let me up, and I prostrated. During one of these spells I went to another doctor, who advised a change of scene, and went away for a few weeks but was discontented and wanted to be back home. My husband came and brought me home again. A few days later my sister came to see me and asked me to try Dr. Williams' Pink Pills. I had three boxes, and by the time I got through them all I was completely well, could do all my own work without feeling tired, and was like a new woman. This was five years ago, and my three other children have come, and I am still enjoying perfect health."

"The only cure I can get," Dr. Williams' Pink Pills from any dealer in medicine, or by mail at 50 cents a box, or six boxes at \$2.50. Dr. Williams' Pink Pills Medicine Co., Brockville, Ont.

## Have Come To The Death Grip

No Longer Poorn for Compromise Between Ideals of Allies

In a special reference to a volume containing extracts from the minister's war speeches, Mr. Lloyd George says: "I never believed that the war would be a short war or that in some mysterious way, by negotiation, or by the sword, we could free Europe from the malignant military autocracy which is endeavoring to trample it into submission and mortal death."

"I always believed that the machine which has established its despotic control over the minds and bodies of its victims and has then organized and driven them to slaughter, in order to extend that control to the rest of the world, would only be destroyed if free peoples proved themselves strong and steadfast enough to defeat its attempt in arms."

The events of the last few months must have made it plain to every thinking man that there is no longer any room for compromise between the ideals for which we and our enemies stand. Democracy and autocracy have come to the death grip, and the other will fasten its hold on mankind.

It is a clear realization on this issue which will be our strength in trials to come. I have no doubt that the world will triumph. But whether it will triumph upon or late after a final supreme effort in the next few months, or long drawn agony, depends on the vigor and self-sacrifice with which the children of liberty, especially those in the lines, dedicate themselves to the struggle.

"There is no time for ease, delay or debate. The call is imperative; the choice is clear. It is for each free citizen to do his part."

The Test New Man—I found this five dollar bill upon my desk, sir. I listened to it in every way you are honest. I put it there on purpose to test you. Sir—That's what I thought, sir.—Bylander.

## Keep Your Shoes Neat

Save the Leather and Improve Your Appearance

War conditions have called into use for army shoes and equipment millions of pounds of leather, that otherwise would have been used for civilian shoes. The result of this enormous drain on the normal markets is reflected in the advanced prices of leather shoes. With butter, eggs, meat and product of all kinds all struggling to out-climb each other and striving for the crown of high price, every method of economy should be adopted in the household.

Shoes can be preserved and their life lengthened wonderfully by proper care. Shoe leather deteriorates from exposure to weather, and when mud and slush carpet our walks and crossings shoe leather is indeed undergoing strenuous service and deserves some care.

Every method that will prevent the devouring action of the elements on leather will naturally lengthen the lives of shoes. "Keep Your Shoes Neat"—so read the advertisements of The F. & D. Dalley Corporation, Limited, and we feel sure this patriotic appeal should be gladly adopted by the public—"A word to the wise" is it were. We are assured "2 in 1" polishes are guaranteed not to injure the finest leather.

## ANY CORN LIFTS OUT, DOESN'T HURT A BIT

No foolishness! Lift your corns and blisters out with fingers—It's like magic!

Sore corns, hard corns, soft corns or any kind of a corn, can harmlessly be rubbed right out with the fingers if you apply upon the corn a few drops of freestone, says a Cincinnati authority.

For little cost one can get a small bottle of freestone at any drug store, and rub it on the corns once or twice every corn or callus without pain. This simple drug does the moment it is applied and does not even irritate the surrounding skin while applying it or afterwards.

Freestone will irritate many of our readers. If your drug-gist hasn't any freestone tell him to get a small bottle for you from his wholesale drug house.

## Deserters Sent Back to Canada

Orders have been issued to the police and Canadian citizens to arrest deserters from British and Canadian armies, according to officers of the British and Canadian consular mission, who announced that one deserter had been picked up in Boston and returned to Montreal. "Plans for rounding up men who left countries under the British flag to come to the United States have been perfected," it is said, and names of Canadian draft dodgers and deserters received from Canada have been turned over to the Boston police.

MINARD'S LINIMENT is the only Liniment asked for at my store and the only one we keep for sale. All the people use it.

HARLON FULTON, Pleasant Bay, C. B.

## FINEST IN EXISTENCE

is what Mrs. C. A. Campbell, of Pownans, Ont., says in describing Zam-Buk. She writes: "I listened to it and had badly wearing new shoes. Some dye from my stocking got into it and caused a soreness on my leg. It was extremely painful and for a week I could not put a shoe on. Then I heard of Zam-Buk and commenced using it. It was just wonderful the way it drew out the poison and inflammation, ended the pain and healed the sore. Zam-Buk is certainly the finest balm in existence—everyone should know of it."

Zam-Buk is also best for eczema, boils, pimples, ringworm, ulcers, old sores, piles, burns, scalds and cuts. All dealers or Zam-Buk Co., Toronto, 50c box, 9 for \$1.25.

**OF LOCAL AND GENERAL INTEREST**

J. W. Verge returned to Milk River by Sunday night's train.

It is to be made compulsory that six-year-olds be admitted to schools after the summer holidays.

Lieut. W. Turner left on Monday night's train for Toronto, and expects to go overseas very shortly.

Mrs. Alex. McFegan came down from Drumheller on Wednesday on a visit to her father, Mr. Ka-fourry.

Mrs. J. D. Dunlop, senior, is down from Calgary this week, on a visit to her daughter, Mrs. Andrew Hower.

Miss Margaret Patterson, after spending the week end with her parents, returned to Tod Creek on Sunday last.

Miss L. M. Perkins spent the week end with friends in Blairmore, and returned to Lethbridge on Sunday night.

The applications for exemption from Messrs. P. Maletto and W. Oliver, of Blairmore, have been disallowed.

Private Isaac Longhead slipped into town "unaware" by Sunday morning's train. He is looking well and states that it makes no matter how old a man is, he feels younger after venturing overseas.

**PIGS**—Whenever you want a pair of little pigs, or any number of little pigs for that matter, drop a line to Charles Powell, Crows' Nest Pass Dairy Farm, Cowley, Alberta.

"Bluebird Day" at the Blairmore Opera House on Thursday, June 6th, brings Franklyn Farnum to present "The Scarlet Car," a thrilling reflection of romance and adventure founded on the best story the late Richard Harding Davis ever wrote. Life in an American town, spiced with unusual adventure and surprising happenings, will be depicted in fast moving scenes of gripping interest.

Mr. Woolard, of Saskatchewan, has arrived at Coleman to resurrect the Coleman Bulletin, and we understand that the paper under the new management will appear this week end. We understand, also, that Mr. Woolard has had considerable experience in the newspaper game and maintains a good reputation, and it is to be hoped that under his leadership the many problems that have been pressed upon the good people of Coleman by the late "guide" will be overcome and that the confidence and support of the people of that community will be restored.

At a meeting of the Crows' Nest Pass Automobile Association on Tuesday evening, it was decided to join the Alberta Motor League. It was also decided to send a delegate to Edmonton immediately to bring pressure to bear upon the government regarding the necessity for attention to the road through the Pass. The secretary was in receipt of a communication from Mr. Robinson and also from the secretary of the Alberta Motor League, both stating that it was the purpose of the Government to pay some special attention to the interprovincial highway throughout this district, and that work would start soon. As to the Dominion government's appropriation of a large sum of money to be spent on this highway from Medicine Hat to the B.C. boundary, it is felt that this money will be forthcoming and that the programme arranged by the government for this year includes the grading of a great portion of this interprovincial road.

Private J. D. Petrie, of Cowley, is reported ill in this week's casualty lists.

**WANTED**—A Girl for general housework. Apply to Mrs. Chapell, Blairmore.

The 78th Depot battery left Calgary on Monday night for Petawawa, for summer training.

When the leaders of a country have wheels in their heads revolutions are a natural result.

Mr. and Mrs. Lawrence Cleland and a party of friends motored up from Cowley on Sunday last.

S. Jensen and family left on Friday morning last for Vancouver, where they will reside in future.

Rev. W. T. Young left for Edmonton on Sunday night last, where he will attend the annual Methodist conference.

Hawaiian sugar is to be refined in Canada. Some day we may have the sense to put music from the same source through a similar process.

**FOR SALE CHEAP**—Set of Fairbanks' Five Ton Wagon Scales. Also a Convertible Two or Four-Seated Buggy, in first-class condition. Apply to Blairmore Flour & Feed Co.

Rev. Dr. J. T. Ferguson, superintendent of Presbyterian missions, spent last week end in The Pass, and met the Union Church congregation after the close of the regular service on Sunday night last.

The wool crop in Alberta increased from 500,000 pounds in 1914 to 2,086,000 pounds in 1917, with an advance in price from 16c to 57c a pound. This year Alberta expects to lead all the provinces in the volume of this product.

Messrs. Brown and Roe, who were arrested last week near Michel while accompanying a quantity of booze towards Alberta, appeared before a J. P. at Fernie on Saturday and were each fined \$75 and costs for having booze in their possession and \$10 for not having the necessary auto licence.

The boxing exhibition given at the opera house on Friday night last proved a good means of entertainment. Most of the ladies of the town, however, were conspicuous by their absence. Several preliminary bouts were staged, the minor between "Mike" Rose, junior, and E. Thibadeau, and the major between Dominic Marshall and Kid Floyd, while several others took place between boys of various sizes, all of which were of good class. The main bout was between Kid Stafford, of Lethbridge, and Sam Saunders, of Vancouver, and for a six-round go was fairly fast. Stafford showed good training and gave evidence of having a punch worth while, and his opponent displayed good physical development and a good sound punch, but was considerably out of trim for such a bout. The affair was well patronized and the promoters are convinced that similar entertainments should be staged from time to time.

**Blairmore Red Cross**

The following subscriptions to the Red Cross funds are thankfully acknowledged for the month of April:

From town subscribers . . . 34.25  
From McLaren Lumber Co. . . 89.00

Total \$123.25

The brass kettle, which was displayed in F. M. Thompson Co's window, was won by Mrs. Jungst. She has generously donated it again, and it will be sold to the highest bidder. The sum of nine teen dollars was realized from the sale of tickets. Please make your offer early.

C. P. Nelson, is putting a new roof on the local P. Burns store.

George Pattee and Albert Ennis left for Calgary Tuesday night, where they will enlist with the Bying corps.

Dr. R. K. Lillie returned from Edmonton last week end, where he had been gathering some new ideas about Masonry.

Franklyn Farnum, the popular star of "The Clock," "The Clean Up," "Anything Once" and other Bluebird Photoplays, is coming to the Blairmore Opera House on Thursday, June 6th, when "The Scarlet Car," another Bluebird, will be presented. The story is one of the best from the pen of Richard Harding Davis, war correspondent, novelist and short story writer, whose superior in his particular field of fiction America has not produced.

Corp. David Kemp returned from Calgary on Wednesday morning. We learn that Corporal Kemp has been granted an honorable discharge from military service. He is one of the many men of this locality who have experienced a full share of the brunt of the conflict, and we welcome him back to home.
